Fine Gold, Dust & Flour Gold, Flake (from \$54/g)

Fine Gold, Dust & Flour Gold

Fine placer gold for sale by the gram or ounce. This natural gold is variously known as "Gold Flake", "Gold Fines" OR "FLOUR GOLD". Our fine placer gold is all natural and measures between #18 mesh and sub #30 mesh. (Window screen is considered approx. 20 mesh, for example). This is the smallest gold we regularly stock. Natural Gold smaller than this usually gets refined and turned into bars or bullion. FYI: A 30 mesh screen has openings measuring 0.0232 inches and gold which will stay on top of this screen, yet will fall through a # 18 mesh screen, are what we describe as "Gold Flakes" or fine flour gold. While fine gold can't exactly be considered gold nuggets because of their small size - they are all natural. Our affordable "Extra Small" mesh gold (approx. 18-30 mesh / screen size) - is 100% natural and perfect for a challenging gold panning practice session, the beginning placer gold collection, or for fine gold jewelry work. There are 100's of pieces per gram. If you need around 40-60 pieces per gram try our next size up - small 14 mesh gold. For larger nuggets please see our medium mesh gold, large 6 mesh and extra large 4 mesh natural placer-gold. They are considerably larger and don't cost much more per gram. Extra Discount for gold in quantities of 5 grams or more. Choose your fine gold quantity below. Click pictures to enlarge image. Image is representative of available gold. Each batch of gold is completely natural and unique so sizes will vary a bit. Price is by weight - per gram of gold, NOT per piece. We invite you to compare our natural gold prices!
